SOCIAL MEDIA AUDIT CHECKLIST

34 actionable checks to evaluate and strengthen your social media presence.

Work through each item below. Be honest — this audit is for you. Check off what you are doing well, and flag the gaps. Your score at the end tells you where you stand and what to prioritise next.

34 TOTAL ITEMS · 5 CATEGORIES

01 PROFILE OPTIMISATION

- ☐ **Bio is clear, keyword-rich, and states what you do**
Your bio is often the first thing people read — it must communicate your value in seconds.
- ☐ **Professional, recognisable profile photo**
A consistent, high-quality headshot or logo builds instant brand recognition across platforms.
- ☐ **Cover photo is on-brand and current**
Prime visual real estate — use it for a current offer, tagline, or brand statement.
- ☐ **Contact info is accurate and complete**
Phone, email, and address must be correct so leads can actually reach you.
- ☐ **Website link is live, tracked, and points to the right page**
A broken or generic link wastes every click — send visitors to a relevant landing page.
- ☐ **Story Highlights or pinned posts are organised**
Highlights act as a mini-website — curate them to showcase services, testimonials, and FAQs.
- ☐ **Branded hashtag exists and is used consistently**
A unique hashtag lets you track user-generated content and build community around your brand.
- ☐ **Profile includes a clear call-to-action**
Tell visitors exactly what to do next — book, shop, download, or message.

02 CONTENT STRATEGY

- ☐ **Posting at least 3-5 times per week consistently**
Algorithms reward consistency — sporadic posting tanks your reach and credibility.
- ☐ **Healthy content mix (educational, entertaining, promotional)**
The 80/20 rule: 80% value-driven content, 20% promotional keeps your audience engaged.
- ☐ **Brand voice is defined and consistent across posts**
A recognisable voice builds trust — people should know it is you without seeing the logo.
- ☐ **Visual style is cohesive (colours, fonts, templates)**
Consistent visuals make your feed look professional and stop the scroll.
- ☐ **Hashtag strategy researched and documented**
Strategic hashtags extend your reach to people who do not follow you yet.
- ☐ **Captions are engaging, not just descriptions**
Great captions start conversations — open with a hook, close with a question or CTA.
- ☐ **Every post includes a call-to-action**
Tell people what to do: comment, save, share, click the link — do not leave it to chance.
- ☐ **Content calendar planned at least 2 weeks ahead**
Planning ahead prevents last-minute scrambles and keeps your messaging strategic.

03 ENGAGEMENT & COMMUNITY

- ☐ **Responding to comments and DMs within 24 hours**
Speed signals that you care — slow replies lose leads and damage trust.
- ☐ **DM inbox is organised with saved replies for FAQs**
Templated replies save time while keeping responses personal and fast.
- ☐ **Actively engaging on other accounts (not just your own)**
Outbound engagement puts you in front of new audiences and builds real relationships.
- ☐ **Encouraging and reposting user-generated content**
UGC is free social proof — it builds community and shows real people love your brand.
- ☐ **Collaborating with complementary brands or creators**
Collabs introduce you to warm audiences that already trust the person recommending you.
- ☐ **Monitoring and responding to reviews and mentions**
Unaddressed negative reviews spread — responding shows accountability and professionalism.

04 ANALYTICS & PERFORMANCE

- ☐ **Tracking follower growth weekly**
Growth trends reveal what is working — a flatline means your strategy needs adjustment.
- ☐ **Monitoring engagement rate (not just likes)**
Comments, saves, and shares matter more than likes — they signal real audience interest.
- ☐ **Posting at your audience's most active times**
Posting when your audience is online gives your content the best chance of being seen.
- ☐ **Identifying top-performing content types each month**
Double down on what works — data tells you exactly what your audience wants more of.
- ☐ **Running competitor analysis quarterly**
Know what competitors are doing so you can differentiate and spot gaps they are missing.
- ☐ **Compiling a monthly performance report**
A monthly snapshot keeps you accountable and shows ROI to stakeholders.

05 PLATFORM-SPECIFIC

- ☐ **Publishing Instagram Reels at least twice per week**
Reels get 2-3x more reach than static posts — they are Instagram's top growth lever.
- ☐ **Active in relevant Facebook Groups (not just your Page)**
Groups drive organic reach that Pages no longer get — be helpful, not salesy.
- ☐ **Publishing LinkedIn articles or document posts monthly**
Long-form LinkedIn content positions you as a thought leader and gets algorithmic priority.
- ☐ **Leveraging TikTok trends with a brand-relevant twist**
Riding trends with your own spin earns massive reach while staying on-brand.
- ☐ **Google Business Profile is complete, verified, and active**
GBP drives local search traffic — posts, photos, and reviews directly impact your visibility.
- ☐ **Messaging and branding are consistent across all platforms**
Fragmented branding confuses potential customers — every touchpoint should feel unified.

YOUR SCORE

28 – 34**Strong Presence**

You are ahead of most businesses. Focus on optimising and scaling what is working.

20 – 27**Good Foundation**

The basics are there. Strategic improvements will unlock your next level of growth.

Below 20**Time for a Refresh**

There are significant gaps costing you visibility and leads. A structured plan will change the game.

My Score: _____ / 34
